TDEggenberger@Gmail.com

Full Stack Developer with a passion for creativity in music, art, and coding, seeking to leverage expertise in web development and AI into a dynamic role as a ServiceNow Developer. Proficient in a wide range of technologies, I bring a creative approach to problem-solving and a commitment to delivering innovative solutions. Skilled in front-end and back-end development, with a focus on user-centric design and efficient, scalable code.

EDUCATION

Full Sail University, Winter Park, FL — *BS Computer Science 2024*

3.99 Accumulative GPA.

CERTIFICATIONS

- **ServiceNow Certified System Administrator**
- **Vancouver Delta - Certified System Administrator**

CURRENT PROJECTS

UVM AI- Inventory Management system with OpenAI integration

UVM AI is a conceptual application developed to mirror functionality of a current enterprise application while enhancing it with AI to leverage higher quality output and streamline interface time. The application makes calls to OpenAI APIs to determine product taxonomy, generate product descriptions, and validate image accuracy for items. Tech used for this product include ASP.Net, C#, MSSQL, OpenAi, JavaScript, HTML5, CSS3, and JQuery. Uvmprototype.com
